AND OTHER..

I piombini in plastica sono stati prodotti basandosi esattamente su quelli tradizionali in piombo (ormai proibiti dalla normativa RoHS: Restriction of hazardous substances).

I piombini possono essere usati con:

- spirulina tradizionale
- spirulina di sicurezza
- spago doganale
- spago tradizionale

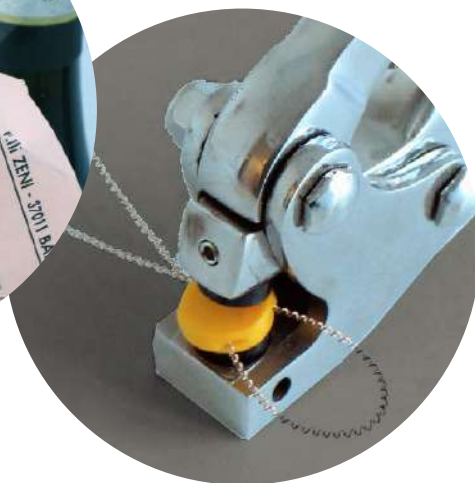

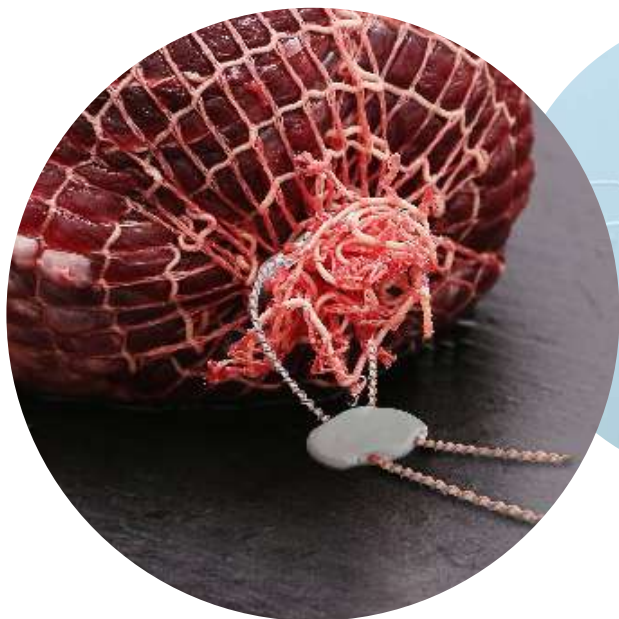

The plastic plumb sinkers have been produced based exactly on the traditional lead lead RoHS ones (prohibited by RoHS: Restriction of hazardous substances).

Piombini can be used with:

- traditional spiral
- safety spiral
- customs string
- traditional string
